## III: Advantages of Using QR codes instead of Hologram Labels

A. Saving the costs associated with printing and sending holograms to various branches of ICCIMA;
B. Printing the security code (QR code) on all the pages of the certificate of origin, without any restrictions for certifications with more than a single page.
C. Displaying the verification page for the issued certificate of origin after scanning the QR code on mobile devices without opening any webpage.

D. Precluding any possibility of hologram counterfeiting as reported by some border branches.
E. Enhanced access management for each chamber.
